Please join us in learning about green schools. Discussion will include an overview of the Duval County Public Schools Green Champions program, student involvement. DCPS

initiatives to reduce operating expenses, and results achieved.

Susan Carew is the Director of Facility Engineering & Energy with DCPS. She earned a Bachelor of Science degree in Electrical Engineering from The University of South Florida in 1986.

Susan worked as an Account Executive for an energy services company for over 18 years. She served as team leader for performance contracting projects and major service accounts. She joined DCPS in April 2005 as a Project Manager for mechanical projects. In August 2005, Susan became the Director of Facility Engineering & Energy for DCPS. Currently, Susan is responsible for developing and implementing DCPS' Energy Conservation program, managing mechanical and electrical renovation projects, assisting with mechanical and electrical design reviews for new schools and major renovations, developing and implementing DCPS' building commissioning program for new and existing schools, and creating and managing DCPS' Green Champions program.
