Kim Newhouse

Please join us in welcoming Kim Newhouse as she discusses the BOMA (Building Owners and Managers Association) initiatives on sustainability, and the partnership between BOMA and USGBC and their common goal to increase the number of existing sustainable buildings.

Discussion will include the BOMA BEEP program and other sustainability programs that BOMA has for existing building. Kim will discuss how vendors and property managers can work together to have their properties be more sustainable and become LEED certified. The challenges and successes of preparing properties for the LEED for Existing Building Operations and Maintenance certification will also be discussed. Kim will share upcoming opportunities available through USGBC and BOMA as the organizations work together to educate members regarding LEED and other sustainability initiatives.

Kim Newhouse is a Sr. Facility Manager for Grubb & Ellis Management Services, Inc. Kim is a LEED Accredited Professional (through the EB track) and active with the USGBC as a member of the USGBC NF Education Committee. Kim serves on the board of directors for BOMA Jacksonville, currently serving as Treasurer for the organization. Kim also serves on the Green Sustainability Committee for BOMA Jacksonville and is the secondary for the Green Committee representing Jacksonville for BOMA Florida. In addition, Kim is a member of the Grubb & Ellis National Green Sustainability team, which manages the corporate sustainability program on a national level. She has experience as a corporate trainer and has been the guest speaker at BOMA on sustainability, as well as consults BOMA members on the LEED program. Kim currently manages two properties that are registered as LEED – Existing Buildings.
